HCO POLICY LETTER OF JANUARY 22, 1962

URGENT
SECURITY CHECKS

Effective immediately, all Security Security Checks, i.e., HCO WW Forms 5A, 7A and 7B etc, when being used specifically as Security Checks, must be done in Model Session form.

This is because it has been found that bad security risks have been passed on these forms due to wildly out rudiments mulling the needle. Conversely, good staff members have been flunked because questions read on ARC breaks etc, rather than on the question being asked.
