HCO POLICY LETTER OF MAY 21, 1962.

T.A.P.E EXAMINATIONS.

In examining students on tapes, do not demand actual wording. Demand an answer that clearly shows that the student has heard and understood the tape and can apply the knowledge.

If the student is in doubt about the answer, flunk. If the examiner is in doubt make the student amplify.

Asking for verbatim wording drives students to copying Tapes verbatim and causes them to scant understanding.
