TRAINING

CLASSES OF AUDITORS.

(Revised from HCO Policy Letter of 14 May 1962.)

The following outline of materials is to be used for compiling check sheets and gives the fundamental skills and understandings by class for Academy HPA/HCA, Class II, and Saint Hill Courses.

An Academy HPA/HCA teaches up to Class IIa which is the equivalent of HPA/HCA and results in the award of that certificate. The highest level of skill of an HPA/HCA is expected to be repetitive processes, assists, and the CCH's combined with Prepchecking.

Anyone retreading at an Academy should be considered to need all check sheets for Class II skills. This is the Academy Class II Course.

While this material will be set out in full in future lectures and HCO Bulletins, academies should begin by using what they have to hand.

Class IIIa and IIIb material is to be taught at Saint Hill in addition to Class II skills.

This outline is released so that instructors can proceed with what materials they have, converting to this outline at once and using new materials being released to keep their check sheets up to date.

It will be noted that all sections of a class are concurrent with each other and are not taught consecutively. The auditing section lags only a bit behind the other two.
