You now have in your hands recent HCO Pol. Ltrs including HCO Pol. Ltr of May 24, 1962, Issue 1.

This gives you a three section Academy based on pilot work done for a year at Saint Hill.

I want and need your commants and suggestions on these matters. You are to put the new Academy plan into effect at once as contained in the policy letters. Having done that you should fill out this questionaire:

- (1) Does the system seem adequate to the training of students?
- (2) What part of the system is hard to understand?
- (3) Aside from the usual complaints about change, what student response is there?
  - (4) What do you now need to help you with this system?

(5) What processes do you feel are lacking in the Classes?	
(6) What basic theory is missing in the Classes just issued	for Academies?
(7) What Instructor difficulties do you forecast?
