HCO POLICY LETTER OF MAY 26, 1962.

IMPORTANT

TRAINING DRILLS
MUST BE CORRECT

TRs

TRs which give an incorrect impression of how auditing is done may not be taught.

All TRs must contain the correct data of auditing.

THIS IS VITAL. There have been two broad instances where TRs gave an impetus to improper auditing which all but crippled the forward advance of Scientology.

These were:

Upper Indoc TRs which caused students to conceive that the CCHs were run without 2 way comm and with a militant, even vicious attitude. (See HCO Bulletins of April 5 and 12, 1962.)

E-Meter Needle drills which caused the student to believe that every action of the needle was a read and prevented three-quarters of all Scientologists from ever getting rudiments in or questions cleared. (See HCO Bulletin of May 25, 1962 and 2 Saint Hill Lectures of May 24, 1962.)

In the matter of the CCHs, we were deprived of their full use for 5 years and extended the time in processing 25 times more than should have been consumed for any result. This came from TRs 6-9 which are hereby scrapped.

In the matter of the E-Meter it is probable that all auditing failures and widely extended false ideas that Scientology did not work stem from the improper conception of what action of the needle one cleaned up. This came from needle reading TRs where instructors had students calling off every activity of the needle as a read, whereas only the needle action at the exact end of the question was used by the auditor. Auditors have thought all needle actions were reads and tried to clean off all needle actions except, in some cases, the end actions. This defeated the meter completely and upset every case on which it was practiced. This accounts for all auditing failures in the past two years.

CCHs must be taught exactly as they are used in session, complete with two way comm --and no comm system added, please.

E-Meter drills must be used which stress only meaningful and significant instant reads coming at the end of the full question.

Other actions of the needle may be shown to a student only if they are properly called prior and latent reads, or meaningless action. From his earliest training on meters the student must be trained to consider a read only what he would take up in session and clear or use, and must be taught that mere actions of the needle are neglected except in steering the pc, fishing or compartmenting questions.

ONLY TEACH PROPER USE. ONLY USE TRS WHICH EXACTLY PARALLEL USE OF SCIEN-
TOLOGY IN SESSION AND DO NOT GIVE AN IMPRESSION THAT SOMETHING ELSE IS USED.

I have seen clearly that Scientology's effectiveness could be destroyed by teaching via TRs which can be interpreted by a student as the way to audit when in fact one does not audit that way or use the data in auditing.

There are many valuable TRs. There will be many more valuable TRs. But an invalid TR is one which gives a wrong impression of auditing. These must be kept out of all training.
