All except Assists, CCHs, Op Pro by Dup and SCS are done in Model Session.

If a process is not mentioned above, do not use it.

NOTE: Any of the above Processes, except 3GA ordinary goals finding and 3GA Dynamic assessment may be done in Co-audits under direct supervision of classed auditors.

For the greatest gain achievable by an auditor in his class, use the above. An auditor attempting processes above his class will have failures and spoiled cases.
