ROUTINE 2-12

When the six lectures of January 8, January 10, and January 15 AD13, are in your hands and understood by staff auditors, the Sec ED's banning Routine 2-12 on HGC pcs are at end.

These lectures alter to some extent the original format of Routines 2-10 and 2-12 by removing arbitrary assessment list and using only lists completed by the pc.

All case repair data is also contained in these lectures.

They also give methods of avoiding endless lists, dead horses and skunks.

HCO Bs will eventually condense all this material. However various emergencies have inhibited the condensation and correction of the data except in lecture form.

The above mentioned lectures take priority over and correct all earlier bulletins and lectures, as they contain two months' experience in observing errors being made in application by auditors, needful Indicators and correction of points that were giving trouble.

Routine 2 is being in general very successful and has been getting better case gains than any earlier process.

However, Routine 2 is complicated and exact and can worsen cases where applied without complete knowledge. It is urgent that Objective One be completed and that auditors who have no R2-12 seal have this pointed out to them.

Squirrel versions should be mercilessly stamped on, as they cannot compete with the thousands of hours of case experience which has gone into creating Routine 2, and can bring disrepute to Scientology.

Accurate R2 repairs inaccurate R2 and is the only process that will repair it.
