BPI　　　　　　　　　HCO POLICY LETTER OF AUGUST 2, 1963
MA
HCO Secs　　　　　　　　　**URGENT**
PUBLIC PROJECT ONE

　　All Scientologists with or without certificates and particularly those who are in continuous contact with the public are urgently requested to advise me concerning data from Scientology they have found particularly acceptable to the general public.

　　I have been waiting a long time until research was wrapped up to O.T. to put heavy power on public dissemination.

　　Scientology is now partitioned into five levels, as follows:

FIRST LEVEL: SCIENTOLOGY ONE:

　　Useable data about living and life, applicable without training, presented in Continental Magazines and booklets. This is for anyone. It contains assists as its auditing level. You have much of this already around. It is a complete unit in itself. "Be Right with Scientology".

SECOND LEVEL: SCIENTOLOGY TWO:

　　Academy HPA/HCA accomplishment level. Scientology for use in spiritual healing. This is a healing strata, using the wealth of past processes which produced results on various illnesses. I am shortly sending out questionaires to get all Healing process results as a research project. The auditing level is Reach and Withdraw and Repetitive Processes. The target is human illness. We have never entered this field but as we are not thanked for staying out of it, we might as well dominate it. It is a good procurement area.

THIRD LEVEL: SCIENTOLOGY THREE:

　　Clearing and O.T. preparatory levels including advanced auditing above HPA/HCA Level. The work on this was more or less suspended when it became obvious that O.T. had to be attained. Includes key out clearing and other sub O.T. states. However, much technology exists on it. This is the level of the better human being.

FOURTH LEVEL: SCIENTOLOGY FOUR:

　　Processes to O.T., Saint Hill Special Briefing Course 1963 type technology and targets.

FIFTH LEVEL: SCIENTOLOGY FIVE:

　　Scientology applied at a high echelon to social, political and scientific problems. This requires the earlier levels and a high state of training on theoretical and wide application levels and the personal state of O.T.

　　The subject of this Policy Letter is Scientology One.

　　You know far more about acceptability of data at public levels than I do.

　　Please then help me re-assemble this data.

　　Address your communication directly to me. Label it at the top:

SCIENTOLOGY ONE.

Then give me a complete and legible (since I'll be reading it) account of what Scientology data you have found of alert interest to the general public, friends, acquaintances, just people, professional people, etc., etc.

　　Tell me where the data came from (what publications or lectures) if possible.

　　Tell me how you have presented this data.

　　Tell me what data you found was not acceptable to the casual public.

　　Give me all the data you use, alter-ised or not.

　　Give me any suggestions you may have for compiling Scientology One data into acceptable form.

　　Take the matter up with your group or friends to find out what they find acceptable - unacceptable, interesting - uninteresting in Scientology.

　　The object here is to obtain data for and compile very basic texts for public use and for basic texts for people presenting Scientology to the public.

Scientology One is itself divided into Theory (data about life, the mind, beingness and the universe), Practical (Drills one can do to raise one's ability to handle others and situations), and Auditing (Assists, ways to get relaxed, ways to cheer up, ways to handle situations, etc., in the everyday business of living, ways to process people without knowing much about processing, ways to get people to pass exams, do their work, get along.)

Please, I need your dissertation on this. Don't think somebody else will do it.

We are answering the questions:

What should compose Scientology One? What Theory do we present that is highly acceptable? What Practical Drills should we include? What Auditing should we recommend that we think anybody can do?

My HCO Secretary in any area will assist you in sending what's wanted. Don't tell her the data, tell me, for I'm the one that has to compile it. My HCO Communicator will send it through direct on my lines.

It is needed. It will be read. It will be used.

L. RON HUBBARD
