HCO POLICY LETTER OF FEBRUARY 24, 1964

NOMINATION OF CASE SUPERVISOR

In HCO Policy Letter of February 24, 1964, "Technical Supervision Changes", it was mentioned that the present Technical Director should take over the post of Case Supervisor initially.

This step is taken to avoid sudden change and randomness. However, it should be borne in mind that the post is quite different and that therefore the present Tech Director may not be the most suitable personnel for this key post.

Basically, the Case Supervisor is an excellent auditor, a person who likes to audit and who can crack cases. His functions may be well understood from studying HCO Policy Letter of February 24, 1964, "Run-down of Case Supervisor Hat".

Therefore, as soon as possible after receiving this Policy Letter, the HCO Area Sec should consult with the Assoc Sec and the members of the Technical Council, and, using his or her judgment, nominate the most suitable person for the post.

This may also affect other posts, such D of P, D of T etc. Therefore, it is essential to effect the action smoothly.

Nominations should be sent for final approval, together with any other changes, by cable to L. Ron Hubbard as soon as possible.

Get your best Tech line up into action soon, since good Tech means happy pos and students and excellent survival for the Org.
