

URGENT
ORG. PROGRAMMING

With the change to the Classification Policy there are various possible danger points to Org. Volume.

Before the public understands Classification they may feel the HGC has gone out of business or various other ideas may get afloat.

At once all comm lines must be utilized to emphasize that Classification means better case gains in the HGC as well as in the field. One gets processed out of a level by the HGC or field auditors as well as trained up from it. The HGC is there to get people's processing at the lower levels caught up in the quickest possible period of time. It can be done best at an HGC which can issue a processing clearance of lower levels and speed the person to higher classification levels.

The Continental Mag should be issued to stress this at once.

HQS as a course should be boomed.

HAS should be stressed for the newcomer.

Get bodies moving through the shop fast. Publicise the HGC well.

Technically is the HGC stress to auditors processes that take case of In-Sessionness. What isn't the pc able to do to be completely auditable? Permit questions to be asked by the auditor? Acccept the environment? Etc. Assess by session partsoand use processes to remedy these things. Stress basic type repetitive processes and grant a right to be run on them to HGC pcs., to handle Level I, and clean up all Level II pc requirements. Get these flat on the pc. And you'll have wins, winds, wins.

Inform the public of the new Case Supervisor and set him or her on duty.

I designed classifications to get maximum case gains for the pc and prevent pcs being given loses. Stress that in HGC propaganda.

GPMs

Issue publicly pc's do have their own goals and GPMs. The best way to get them run is to get graduated up through the levels.

The invalidation of the idea that a pc had his own goals was a severe blow. Invalidation of a pc's own GPM's, calling them implants, produces and instant ARC Break and physical repercussions.

So correct this quick on Broad Public Interest (BPI), regardless of Classification.

SOLVE IT WITH SCIENTOLOGY

If the Org slumps during this transition period, don't engage in "fund raising" or "seeling postcards" or borrowing money.

Just make more income with Scientology.

It's a sign of very poor management to seek extraordinary solutions for finance outside Scientology. It has always failed.

For Orgs as for pcs "Solve it with Sciantology".

Everytime I myself have sought to solve finance or personnel in other ways than Scientology I have lost out. So I can tell you from experience that Org. solvency lies in More Scientology, not patented combs or fund raising Barbecues.

FUTURE

This Policy Letter though urgent should be noceause for alarm. Orgg arenot going broke. They are however ina transition period to huge volume of action an it is costly to bridge.

These immediate steps will prevent any slump, if swiftly taken. So take them.
