HCO POLICY LETTER OF MARCH 18, 1964

CALIFORNIA FRANCHISE  
(Amends HCO Policy Letter of October 1, AD.12 -  
"The Plan for California").

Henceforth, all California Franchise holders are to send their reports and 10% direct to HCO WW.

They are to discontinue remitting 10% of their Scientology and Dianetic incomes to HCO Los Angeles/California.

They need not report routinely to HCO Los Angeles/California, but may do so, if they wish.

This does not alter the fact that all California auditors, in order to practice in California, must be licensed by the Church of Scientology of California, and must have a Charter from that Church, as a Branch Church. Otherwise no legal protection or credentials can be extended to that auditor.

No auditor in California will be franchised by HCO WW without this charter and license.

All California Franchise must be Ministers of the California Church.

The Church of Scientology of California may charge a fee for this license and Charter, but may not request nor accept a percentage from California auditors.
