THE JUSTICE OF SCIENTOLOGY —
ITS USE AND PURPOSE
BEING A SCIENTOLOGIST

The reason we have Justice Codes is to have justice. We don't want or need injustice.

When we have no codes, "justice" can be anything any authority cares to make it.

We have had too much caprice passing for justice. It is time we had justice.

Committees of Evidence work. I recall one Tech Director accused of tampering with a student. I was told he was about to be disciplined and sacked. I stopped that action and had a Committee of Evidence convened. Accurate testimony revealed the story false and the Tech Director innocent. Without that committee he would have been ruined. I know of other instances where a committee found the facts completely contrary to rumor. Some are guilty, most are innocent. But thereby we have justice and our necks aren't out. If a person is to keep the law, he or she must know what the law is. And must be protected from viciousness and caprice in the *name* of law. If a person doesn't keep the law, knowing well what it is, he or she hurts all of us and should be handled.

The enturbulence of the society around us is fantastic. There is no just civil law left, really. It is that lawless and disorderly condition in the society about us which makes it hard for us to work. Shortly we will be even more powerful. That power must not be lawless or we will have anarchy and dismay, enough to stop our growth.

If we have a superior law code and legal system which gives real justice to people, we will *simply* flow easily over the society and everybody will win.

Where we fail to apply our own administration, technology and justice procedures to the society around us (let alone Scientology), we will fail.

There is too much truth in our *lines* not to cause a social upheaval. Therefore, let us have justice and expand into higher order, not plunge the world into darkness because our power as a group struck innocent and guilty alike.

A Scientologist must understand his own justice system. Without understanding, again there will be no justice.

Already the following points need correction in the uninformed person concerning our justice.

A Committee of Evidence is not a court. It is simply a fact-finding body with legal powers, convened to get at the facts and clean up the ARC breaks caused by rumor. When it has the truth of it, then a Convening Authority acts—but only in exact accordance with a Justice Code.

Our justice really rehabilitates in the long run. It only disciplines those who are hurting others and gives them a way to change so they can eventually win too—but not by hurting us.

A Scientologist who fails to use Scientology technology and its administrative and justice procedures on the world around him will continue to be too enturbulated to do his job.

That sounds extreme to anyone.

But if you look it over, you will find that the "power" of the "society" and "state" is pretended and is made from an effort to be powerful where they actually lack power. Our situation is quite the reverse. Ours is the power of truth and we *are* capable of power as a group, having power as individuals due to processing and power of wisdom due to superior technology.

Therefore when we grant too much beingness to *their* "power," we are granting validity to a falsehood and so it recoils on us.

We are, in short, knocking our own heads off by failing to use our knowledge and authority when we administer or handle our fellow man or society. It's like refusing auditing to somebody or not making it possible. It's also investing a lie with power. Society is losing ground because its "power" is based on a pack of falsehoods. *We* will lose ground if we empower those lies.

There's real magic to be seen here. For instance every upset we have is traceable to *our not knowing* or failing to apply *our* technology and admin and justice procedures to the society around us and its individuals, firms and groups.

This is worse than you think. A Scientology executive not handling dev-t (developed and unnecessary traffic) from a government in accordance with our dev-t policies when it was off-line and off-policy recently caused an upset. A government official was off-policy (his own bureau's) and the Scientology executive did not follow *our* procedure of (a) send it back to source (b) correct the policy error and (c) inform his superiors when results were not obtained. You say, "But that's wild! Run a government by Scientology admin?" Well, all I know is that it caused trouble when we didn't.

Evidently it's not "them" and "us." It's just "us" and a false "them."

So all we have to do is to get their hats on and they're *us*.

Failure to take our usual justice actions on offenders against us will result in eventual chaos. What matter if they don't appear before the Committee of Evidence we convene on them? How do we know they won't? How could the Victoria Parliament ever come right if we failed to (a) convene a Committee of Evidence (b) follow our legal procedures?

No, they just stay "*them*."

Has anybody informed the FDA of our amnesty? Well, did you know the FDA was looking for a way out of their mess for fear we'd sue for a million? They'd drop the E-Meter case if they thought we wouldn't sue.

How do we know if we don't try?

So therefore we *must* use Scientology tech, admin and justice in all our affairs. No matter how mad it sounds, we only fail when we don't.

And therefore every Scientologist should understand his own tech, codes and procedures.

Some Scientologists believe when a Committee of Evidence is convened that they are at once suspended.

Nobody *can* be suspended or punished by the *convening* of a Committee of Evidence. It's there to find the truth. *Only* when its findings are submitted to its Convening Authority and *when* the Convening Authority acts can anyone be suspended or transferred or demoted.

Don't react to Scientology justice as though it were *wog* law. In society's "courts" one is given the works, and truth has little bearing on the findings. A mean judge or clever attorney and small legal errors decide a lot of their cases. Wog courts are like throwing dice. There is huge cost and publicity and punishment galore even for the innocent.

So we must preserve our justice.

And use it.

That's the main lesson. If we don't use it in all questions where the truth of the matter is in doubt, we'll just go on being wogs.

If we don't exhibit our science as a GROUP and show a good example, what can we achieve?

So let's grow up to our own technology and take responsibility for it.

And wear our hats as Scientologists to the world.
