

Revised

HCO POLICY LETTER OF 25 AUGUST 1965

CLASSIFICATION AT UPPER LEVELS
TEMPORARY MEASURE

Classification for Levels II, III and IV may be obtained by presenting evidence of skillfully applying one of the processes below rather than grade processing to the Examiner.

The Examiner must be satisfied as to the general skill of the auditor.

Auditing By List, R2-12, R4H can be run on a person who went 1st Stage Release on Comm Processes. (Warning - R2-12 is too fast and got us into trouble by releasing too quickly and was grossly overrun by all. It was withdrawn but now its fault has been found. Of all processes it releases most quickly.)

The following can be run on any pc:

1. ARC Breaks
2. PTPs
3. Withholds
4. Any Continuing Overts
5. Release Rehabilitation

In fact these must be covered in reviewing cases.

1. No-one must be audited while ARC Broken but the ARC Break can be found, located and indicated.
2. A PTP drives the pc into back track in an effort to avoid it.
3. TA ceases to increase or declines in the presence of a missed withhold (particularly one missed when the TA ceased to increase or declined.)
4. A pc continually committing hidden overts in P. won't advance at all.
5. You can always rehabilitate a moment of former release.

Therefore any of the above 1 to 5 can be run on any release of any stage.

Thus an Examiner can require one of the above processes demonstrated for the level they match in lieu of grade processing for the classification requirement.
