HCO POLICY LETTER OF 23 AUGUST 1965
Issue II

CREDITING OF AUDITOR IN
RELEASE LOG BOOK

In logging a Release in the Release Log Book, Certs and Awards is to credit as auditor, The HCO auditor who was on the case at the time of Releasing. In some cases, other auditors will have worked on the case, but as auditor reassignment is usually due to the auditor having goofed too often, only the auditor who gets the final result will be credited.

Review action in Qual is not to be credited, as this is Review of the result, and not the actual auditing to Release.

If the person was no Released and had to be finished by Review, meaning a process had to be run, the Review Auditor is credited.

In the case of a Rehabilitated Former Release, Certs and Awards is to credit the HCO auditor who did the rehabilitation and is to enter a "(Rehab)" after the name to show that it was a rehabilitation.
