STUDENT AUDITING OF PRECLEARS

Students may not audit any public preclear who is a preclear of any organization.

A student when looking for a preclear to audit for their classification on a level must first check with the preclear if they have been audited by an organization and if they have, they are not to be audited by the student without express permission from the organization concerned.

As the purpose of having students get preclears to audit on their own initiative is to teach them how to disseminate and reach into the broad public, it is hardly acceptable for them to reach Scientologists and will be an automatic disqualification for classification if this is found to be the case.
