HCO POLICY LETTER OF 19 JANUARY 1966  
Issue II

LRH COMMUNICATOR ORDERS

The only orders an LRH Communicator may issue to other than his own division staff are those exact orders found in SEC EDs or from the Executive Director. These are always on channels in accordance with the org board and with no by-pass. He always informs a senior before he questions that person's junior.

EXCEPTION

When a unit, Section, Department, Division or the Org is in Danger Condition and the LRH Communicator lacks specific orders for it he may issue his own orders from Policy. Then the orders are issued only to handle the condition and if the LRH Communicator does have to operate on a by-pass with his own orders to get compliance and handle the Condition, he or she must follow then the Danger Condition formula exactly as the assigning executive.

The primary function of the LRH Communicator is getting acknowledgements for SEC EDs issued or getting the Executive Directors orders and policy issued and reporting to LRH. He does not often issue orders and when he does they are covered by policy as above.
