ATTACKS ON SCIENTOLOGY

SEX AND ORGANIZATIONS

It is interesting that a review of faltering orgs that got into trouble in their areas each one had a bad sex entanglement high on staff.

A Review of actions of orgs and attacks over the last 15 years makes it stand out sharply that an org which is mixed up sexually in the higher echelons will not be effective, will have low statistics and can't defend itself on the public front.

Such are not attacked for loose sexual relations. They are just too decayed to do a good job of defense or follow policy. So they become subject to attack.

The last UK attack was easily rebuffed and so are many attacks. But where an org is caved in by bad sexual messes, it doesn't seem to be able to defend itself on the general front.

We don't often get such situations as a sex-mess org but where we do, they get into severe trouble on other counts.

Sex, obsessive and promiscuous, is a blood brother of psychosis. Note the sex stress of Freud, the sex orgies in institutions between patients and attendants and psychiatrists. Note the book (early '50s, U.S.) by Psychiatrist FRIEDA FROHMM REICHMANN, where she tries to get her fellow psychiatrists to leave their patients alone. It is a text trying to make them ethical in their practices. It reveals a sordid picture.

This is given as an indicator. I know only 4 orgs in all the 16 years before this writing that collapsed or came near collapse at one period in the history of each. And each one was sex crazy. (LA 1950, Melbourne early 60's, Johannesburg 60s, Washington 62 on. Each of these got into severe trouble. LA 50 collapsed, Melbourne collapsed, Johannesburg nearly collapsed, DC is being saved only by strenuous effort.)

So we have an indicator that when an org in the upper strata starts tolerating sexual promiscuity you can expect serious trouble of other kinds just ahead within the next year or two.

This also applies to psychiatry as we will start knocking this out shortly.

I am not talking about an occasional "affaire" or a slip. I am talking about general dedicated sexual misconduct by staff as the ordinary occurrence.

As a speculation it might be the early Christians (who were no fools as they built strong organizations) discovered in the first century or two that a Church which went sexually off-beam didn't last and so banned it. They may have banned it so hard they made even casual Christians madly anti-sex, which is a lot too much. Certain it is they saw sex as an organizational menace and did not see that violent anti-sex was just as crazy, being the other side of the same coin.

Thus Exec Secretaries should be alert for an org going off the beam. Watch in low statistic orgs that don't recover easily for heavy sexual promiscuity and get the sex loops out of it quick, particularly out of its upper executive level. For I promise you that that org will absorb thousands of man-hours of work to rebuild if sexual misconduct is let go on.

The label of sexual promiscuity easily attaches to persons and is not always true. So be very thorough in the investigation and be sure the charges are factual. If so, shoot quick. Don't caution. Experience with such has taught me that no amount of persuasion or orders will (a) bring up their statistics or (b) stop the catastrophe they will walk into. Only prompt removal of the offenders will get the org going up again.
