ORGANIZATION

ORGANISATION
DEFINITION OF

The word ORGANISATION in Scientology policy means an activity organised on the 7 Division System authorised by myself and regular official Scientology organisations and under Worldwide.

When an activity or project is taken over by an organization but is separate from it, the new unit will be called an ORGANIZATION.

By the use of this word it should be communicated that the activity is fully regular, official and conducted by real authorised Scientology organisations.

The word PROJECT hereafter denotes an unestablished and unofficial activity condoned or authorised by an organisation.

The word PROGRAMME means a routine activity within an organisation repetitive and continuing.

With the issue of this policy letter, the Scientology sea activity or "project" becomes the SEA ORGANIZATION and the base establishment becomes the BASE ORGANISATION as these are official, recognised and are conducted by proper Scientology organisations and are under Worldwide.

The word ORGANISATION or ORGANIZATION or ORG may not be used to denote an unofficial or test or temporary activity or an activity not authorised by main line Scientology.
