HCO POLICY LETTER 5 MAY 1969

SUB-ZERO GRADES

With the recent advances in Dianetics and the development of a completely new Dianetics Course, it is found that a person must not be audited on any Scientology processes until all his body somatics, aches, pains, unwanted sensations etc. have all been handled by Standard Dianetic Auditing.

This changes the Sub-Zero grade line up. ARC Straight Wire, although a very effective process, is no longer a grade. Secondary Release and Engram release are no longer grades.

In Dianetics we are interested in the erasure of all locks, secondaries and engrams that are resulting in undesirable physical conditions. When a pc has attained this condition he is given a certificate by the Qualifications Division and then proceeds with Scientology processing starting at Grade 0.

Dianetics and Scientology are two completely separate subjects. Dianetic sessions are kept in separate PC folders of different colour. Usually orange for Dianetics and Blue or Green for Scientology.

A person audited on Scientology processes over the top of physical PTPs does not make the gains available from these processes.

A person who has already had his physical troubles fully handled by Standard Dianetics gets remarkable gains from Scientology auditing and will make it ~~it~~ to OT.

This in no way invalidates the releases made on ARC Straight Wire, Secondaries, and Engrams. These are valid releases.

What we now have is a new Standard Dianetics which, when applied exactly, produces 100% results in the handling of body difficulties and we have 100% Standard Scientology Auditing which takes the person all the way from a happy person without body somatics up to OT.

A student must have graduated from the new May 1969 Dianetics Course before proceeding to Level 0 Academy training.
