HCO POLICY LETTER OF 11 APRIL 1970

Remimeo

THIRD DYNAMIC TECH

The material contained in HCO BULLETINS applies to the FIRST DYNAMIC—self, the individual.

The data, material and procedures contained in POLICY LETTERS apply to the THIRD DYNAMIC—the dynamic of groups.

In applying HCO Bs as in auditing a preclear, you see that following a certain procedure results in the remedy of a certain personal situation.

In applying HCO Policy Letters, you see that by following or continuing certain Third Dynamic procedures you remedy, handle or continue certain situations which relate to groups.

In both cases, SURVIVAL is the keynote of the end result.

HCO B auditing tech increases the survival of the individual as an individual.

HCO Pol Ltr Third Dynamic Tech increases the survival of the group.

Man has always had a certain amount of know-how in both individual and group matters of survival but he has never had any high level of result.

It is easy to see auditing improve the individual when it is exactly and expertly applied.

Similarly one can see Third Dynamic Tech improve the group and its survival potential.

Just as there is “squirrel” auditing (alter-ised and unworkable) so there can be “squirrel” Third Dynamic Tech.

An executive who has no familiarity with HCO Pol Ltrs can make an awful lot of mistakes.

It is an easy pretense that First Dynamic Tech existed. But no one got any better when Man knew no more than the mumbo-jumbo he had before 1950. Since then real results occur. But they only occur when the actual tech of Dianetics and Scientology is correctly applied.

The same situation existed in the field of the Third Dynamic. The pretense was that “business” tech was successful, to name one. But 17 out of 19 businesses fail every year and the whole of the business world is under threat from the ideology of Communism. Strikes, legislation, banking and other catastrophes daily remain unhandled by “business tech”. So there’s only pretense that “business tech” applies to groups successfully. It is at best a dying technology.

The failure is that previous Third Dynamic Tech did not seek out and learn the basic laws on which it must have existed.

You have seen the First Dynamic Tech of auditing develop over the decades to a highly precise and very workable body of knowledge. The current search began in about 1931. By 1970 it was in full practice over the world.

The need of organizations to serve the First Dynamic Tech beginning in 1949 forced further and further into view the absence of Third Dynamic Tech and its vital need.

With much hard experience the data now contained in HCO Policy Letters was won. In 1965 I began an active search for the basic laws of the Third Dynamic. What has been found since then has been recorded on tapes or published in HCO Pol Ltrs.

If auditing took 38 years to bring to a highly polished state, then the 20 years of experience of which only 5 were devoted to an active effort to locate the basic laws can be seen to be an incomplete study.

But incomplete or not, the data and drills contained in HCO Policy Letters are a great advance over what Man had.

For instance, in 1950-51, using the crude organizational tech Man then had, the first board of directors of Dianetics Foundations failed utterly. Any and all off-on-the-wrong-foot moves which became later woes to us were laid in at that time by some of the finest legal, accounting and PR experts one could retain.

Twenty years later our organizations, travelling on our developed Third Dynamic Tech (and even now poorly known by staffs) have enabled us to survive in the teeth of old vested interests and not only that to expand as well.

This is due to the practical know-how we have dredged up and used and which you find in HCO Policy Letters.

Naturally, we have not had time to develop Third Dynamic Drills for every situation. We have not had time even to train all our staffs.

But the basic knowledge is there, recorded on tape and on HCO Pol Ltrs and when known, understood and used it gives us survival, expansion and prosperity. When it isn't known or understood or used, only then do we sag.

If a study of our Third Dynamic Tech is approached from the viewpoint that it is for use and when known, understood and used that it will deliver an expected result, then one has a proper framework for the study of it.

If one thinks it is a series of orders, or just some random ideas, then one will not have the use of it.

The short span of men's lives inhibits the full development of any one subject in one lifetime. Thus there is a lot of room for further expansion of our Third Dynamic Tech. But the basic laws can be found in it and many exact drills are contained in it and it has great value in any zone of application.

What we now know and use of our Third Dynamic Tech is all that has forwarded our survival so far.

Thus its wider understanding and use in our own organizations is the key to prosperity and expansion.

An "old experienced Scn executive" (who has a lot of this know-how) can go into a collapsing org and boom it. The data he is using is all in these policy letters. He knows it is there for use and he uses it in action.

The elements he uses are in HCO Policy Letters.

The data encompasses Third Dynamic Tech. It is applied very much like one applies the First Dynamic Tech to the individual.

In its present state of development, like early auditing material, Third Dynamic Tech is used to think with, and only the bright mind will achieve its full potential in action.
