Remimeo HCO POLICY LETTER OF 26 FEBRUARY 1971
LRH Comm
Hat

LRH COMM TROUBLES

An org with an effective LRH Comm prospers.

Yet an org inevitably tries to give an LRH Comm problems.

Basically I operate as a Product Officer for the whole of Dianetics and Scientology.

In doing this I attempt to get orgs producing and try to get them to organize so as to back up production.

Thus my orders relate to an orgs products or to getting it to organize so it can produce.

When you try to get production you will find any lack of it is traceable to someone not wearing his hat.

When you try to get organization to give production, any failure is traced to someone not wearing his hat.

This can extend to there being no one there at all to wear the hat in the first place. In such a case, the person not wearing his hat is the HCO senior who is failing to recruit or hire. So it is again a problem of someone not wearing his hat.

In the wide planetary scene, a large percent of the population do not wear their hats as beings, thus the malady extends easily into orgs.

The final answer to any problems on LRH Comm lines is to get an LRH Comm on post who is wearing his hat and who then has a system that selects out those who are not wearing their hats.

The persons who DO wear their hats in orgs are amply rewarded in terms of accomplishment.

Those who don't are the ones who prevent compliance with orders that will put things to rights.

The background record of LRH orders has been proven by statistics of rising stats when followed and falling stats when not.

Such orders exist on an immediate basis or in policy or technical form.

By getting in the orders and their know-how in tech and admin, the LRH Comm is the one who is driving in an expanding zone of a new era.

How to get these orders followed is the subject of this Policy Letter and HCO Policy Letter 27 Feb 71 Issue I and 27 Feb 71 Issue II.

Here is additional material that does not change any existing LRH Comm expertise but which makes it much easier to do his job effectively.
