DATA SERIES AUDITING

(Reference: HCO B 24 July 70, "Data  
Series" and HCO B 28 August 70R  
"Confidential for Auditors Only".)

Whenever a student cannot grasp or retain the data of  
the DATA SERIES Policy Letters, he must be audited on the  
Data Series Rundown (also called the Hubbard Consultant  
Rundown).

The reason for this is that he himself has OUTPOINTS  
and it is necessary to audit him on this subject.

When the student has outpoints, it has been found that  
he has a terrible time grasping or retaining the Data Series  
material.

This does not mean the student is in any way crazy.  
It just means he is illogical and has outpoints in his  
thinking.

This will reflect as well in his other studies.

So handling this is a vital action.
