FEBC GRADUATE POLICY

Any person graduating from the Flag Executive Briefing Course is expected to go back to his Org and apply the admin technology learned 100%. The result expected from this application is a booming Org, shown by rising stats, within a couple of weeks of the graduate's arrival.

Failure to accomplish a marked increase of the Orgs stats as above will result in immediate recall to Flag or local CIO for cramming, possible retraining and auditing at own expense.

There will be no exceptions to the above policy. There is no other reason for an FEBC Grad not to raise stats other than failure to apply the data learned.

The great majority of FEBCs are huge successes in their orgs. Their status must not be hurt by the occasional failure.

This policy also will apply to courses run in CIOs.
