Personnel Programming Series 1

PERSONNEL PROGRAMMING

A Programme can be defined as:

"A plan of study for an individual student over a given period."

"A Plan of procedure; a schedule or system under which action may be taken toward a desired goal. The keynote is a sequence of actions."

"To work out a sequence of operations to be performed by a person or computer."

The root words associated are Programme (Greek) - A public notice, and Prographein (French) To write before. (Websters 7th Collegiate Dictionary).

A Personnel Programmer works with individual staff members and draws up workable personnel programmes and sees that they are fully executed.

The purpose of a Personnel Programmer is: to help LRH to expertly programme each staff member to a point of real success on his own post, to operate well as a member of the group and attain higher and higher levels of skill, knowledge and ability, through full use of the technology of Scientology and Dianetics.
