LRH Comm Hats
Management
Aides
Management
Reps
FR Hats

(Revised and re-issued 30 April
1975 as BPL. Revised and re-
stored to HCO PL status 22
March 1978.)

(Revisions In Script)

LRH EDs

According to existing policy, LRH EDs like all EDs expire one year after issue.

This policy presupposes that the ED in the course of that year actually got COMPLETED.

An LRH ED expires only when:

- (a) It is fully complied with, and the verified compliance has been accepted through the local LRH Comm, the LRH Comm Continental and LRH Comm International by LRH, AND
- (b) One year from date of issue has elapsed, OR
- (c) The LRH ED is amended or cancelled by another LRH ED.

If at the end of a year after issue the LRH ED is STILL not complied with, Ethics action can be expected on those to whom the program was assigned, the local FR and the local LRH Comm responsible for the non-compliance, plus any other management personnel responsible, at the instigation of the Cont LRH Comm, LRH Comm Flag or LRH Comm International.

END OF CYCLE

Henceforward, LRH Comm Network Int Headquarters will issue an addition to each LRH ED one year after date of original issue.

The addition will state clearly which orgs and units can consider the ED expired, and which orgs must continue to work on it.

The aim will be to have the ED completed and expired for ALL orgs and units it applies to.

RE-LOGGING

The LRH Comm of any org has the power to re-log any LRH issue for compliance anew.

This includes LRH EDs which have expired or are over one year old.

This right is fully retained.

However, the force of LRH Comm's order to re-do an LRH item is provisional on:

- (a) A full investigation done with real why found showing why the re-log is necessary forwarded to Int HQ via LRH Comm Cont info Data Bu Flag.
- (b) Receiving confirmation from LRH Comm Network IHQ that the re-log is justified, correct, and co-ordinated with existing on-policy management actions concerning the org.

This exchange is NOT put on telex lines automatically. A cancellation might be telexed, if urgent.

DISPUTED RE-LOGGING

If a local Exec feels that the re-logging is an incorrect action and will be damaging to state, he may inspect the LRH Comm's investigation on the re-logging and then can:

1. WCM4 the issue to be re-logged
2. WCM4 the LRH Comm investigation
3. Submit a Query of Orders per PL 16 Dec 69 "Orders Query Of" to the LRH Comm who must handle it at once.

If state are shown to have gone down later, investigation must be done to establish if the re-logging was the real Why. If so, it must be cancelled and reverted and fully reported via LRH Comm Cont to LRH Comm Network IHQ info Flag Data Files.

The CO, ED or other management personnel concerned may originate or okay a telex from the executive disputing the re-logging after No. 3 above, to the LRH Comm org's senior via his own senior at that level if the LRH Comm upholds his decision to re-log and it is still held as incorrect.

With proper co-ordination of Org Programs and LRH orders and programs at Flag with LRH Comm lines and correct use of Data Series 23-25, no undue trouble should occur.

Both unjustified protests on re-loggings and incorrect re-loggings which do damage state are subject to Ethics handling.

A re-log can apply to a whole org, a section or more, or to an individual.

Any LRH issue may be re-logged (that hasn't already been cancelled or amended legally).
