HCO POLICY LETTER OF 21 MAY 1976

Remimeo
HCO

HCO, THE ELITE CORPS

HCO is being made into and will become and must be an elite corps making HCO the most ethical division in the org.

Special requirements are being issued for HCO personnel giving old personnel an opportunity to meet them and requiring them completely from new personnel.

If HCO is not the most ethical division in the org, the org itself will not have much chance to be a fully ethical org.

Ethics standards required for HCO Personnel also apply to the HES in the org.

This policy letter in no sense condemns any HCO personnel who are ethical and who have been doing their job. It is simply an upgrade and something that must be.

Scientology is heading for international expansion and in almost all areas serious opposition to it has ceased, and it is moving into a vacuum created by an absence of social services and effective education.

One of the fastest ways to expand an org is to bring about an HCO where every person now in it (excepting only expeditors) are the most ethical persons in the org, and who become hatted and trained to do their job and expand that org efficiently and effectively.

Only a division composed of the highest possible ethics standards can hope to bring order.

The requirements for HCO are being laid down by CS-1 and activated by the External HCO Aide of the Flag Bureaux.
