(CANCELS and REPLACES the following off-Source issues:

HCOB/PL 6 Dec 76R	ILLEGAL PCS, ACCEPTANCE OF,
Rev. 27.5.80	HIGH CRIME BULLETIN
HCO PL 26 Oct 70	INSTITUTIONAL AND SHOCK CASES, POSTING OF BONDS
HCO PL 5 May 80	ILLEGAL PCS
HCO PL 26 Mar 79 III	OUT TECH AND "ILLEGAL" PCS)

It shall be a Committee of Evidence offense for a Case Supervisor or auditor to C/S or accept for processing and process any pc:

1. Who is terminally (fatally) ill, regardless of what the org or registrars may have promised or asserted. Such diseases as advanced cancer are included.
2. Who has an extensive institutional or psychiatric history which includes heavy drugs, shocks of various kinds and/or so-called psychiatric brain operations.

By "institutional or psychiatric history" is meant having been treated in a public or private institution for the insane or a psychiatric ward in a hospital, or as an out-patient. An unfortunate victim would not have to have been "committed" in order to be considered to have an extensive institutional or psychiatric history. The criminal suppressives who bludgeon people electrically and chemically often ask that their victims come in once a week for their "treatment" and then leave immediately, rather than commit them (which itself is an outpoint, because such swine enjoy viewing the shaking hand, the slobbering mouth and the terrorized eyes of their prey).

3. Who has been denied processing by HCO, the Office of Special Affairs or the Office of Senior C/S International for reason of past history or connections or current state as it may affect the safety and security of the org.

This third category would include people who are members or ex-members, or in families of members or ex-members of media, police spy organizations, government spy organizations such as the NSA, CIA, IRS, DOJ, FBI, etc. or any other federal or national agency in any country, and persons with prior service in a high-security section of the government or armed forces (since these people are often given psychiatric treatment which is then wiped out and will only show up on an E-meter). It definitely includes anyone who has ever gone to or threatened to go to the press, or who has tried to sue Scientology.

It shall be a Committee of Evidence offense for any ED/CO, Org Exec Sec, Technical Secretary, Director of Processing or other executive or staff member to bring pressure or persuasion upon any Case Supervisor or auditor to process any person who falls into one or more of the three categories of illegal pc as given above.

(Note: These points do not cover people who are only PTS or out-ethics as they are NOT illegal pcs. For example, a pc who has a parent or a spouse that hates God, Scientology and everybody is a PTS pc. PTS or out-ethics pcs can and should be handled; where they are not being handled but are instead being routed off org lines as "illegal pcs" it is an indicator of out tech in the org. The classifications of illegal pcs laid out in this issue are quite clear. If a person does not fall under any of these categories, he is not an illegal pc and should not be labeled as such.)

Illegal pcs are those cases described in the three categories listed above. It is not that such cases cannot in many instances be handled. It is that neither Scientology nor the org, but doctors and psychiatrists, have brought about the condition and such conditions are outside the zone of responsibility of the org.

Signing up such pcs is already illegal, but where it has occurred intentionally or accidentally, no one has the right to force such persons upon Case Supervisors or auditors for any reason.

Any improper promise made to such a person or his relatives is not binding upon an organization or its staff and such promises are also a Comm Ev offense.

Special petition may be made by the person concerned to the Office of Senior C/S International, the representatives of which may act to correct injustices or erroneous use of this Policy Letter. But the Office of Senior C/S Int itself does not have the right to persuade or insist that Case Supervisors or auditors accept the person for processing unless it is very clearly demonstrated that the person does not fall under any of the above three categories.

Doctors are too often careless and incompetent, psychiatrists are simply outright murderers. The solution is not to pick up their pieces for them but to demand medical doctors become competent and to abolish psychiatry and psychiatrists as well as psychologists and other infamous Nazi criminal outgrowths.

Society and police agencies should deal with such offenses. It is not up to Scientologists to salvage the wreckage created by these professions, but to prevent it from happening in the first place by reforming a degraded society.

These three categories of illegal pcs (and the very fact of having to label a pc illegal) may seem cold and cruel. That's because it is. But it is not Scientology's coldness nor cruelty. The cold, cruel reality is that Scientology's troublemakers come from the above three categories, particularly 2 and 3. Another cold, cruel reality is that survival of the fourth dynamic depends largely on always considering the greatest good for the greatest number and never wavering from this.

Before anyone wrongly accuses Scientology of "turning someone away," remember this: we are the only group that has to CONSTANTLY FIGHT TO CONTINUE TO HELP MAN. And you should also be aware of this: if there were NO psychology and NO psychiatry, THE THREE CATEGORIES ABOVE WOULD NOT EXIST. Someday psychology and psychiatry will be as dead and gone as the rack and iron maiden. When that day comes, there will be no illegal pcs, and this policy will be cancelled.

Until such time as doctors have become fully competent and psychiatry and psychology have been recognized for what they are and abolished, Case Supervisors and auditors are actionable for surrendering their rights and handling such. It is not that they cannot. They must not.
