ILLEGAL PCS

(Cancels Pilot HCO PL 26 Mar 79 III
OUT TECH AND "ILLEGAL" PCS)

References:

HCO PL/HCOB 6 Dec 76R   ILLEGAL PCS, ACCEPTANCE
                          OF HIGH CRIME PL/HCOB
HCO PL/HCOB 11 Feb 80   ILLEGAL PCS, ACCEPTANCE
                          OF ADDITION REGARDING
                          PURIFICATION RUNDOWN

        The above mentioned pilot policy on OUT TECH AND "ILLEGAL"
PCS is hereby CANCELLED.

        This PL made it a Comm Ev offense to mislabel someone an
"illegal" pc. The effect this created was to divert staff's
attention by putting their attention on whether they would be
comm ev'ed, rather than correctly spotting and handling an
illegal pc.

        This opened the door for illegal pcs to be let on lines
for auditing.

        Illegal pcs should be detected and correctly labelled.

        The categories used in determining illegal pcs and their
handling are contained in HCO PL/HCOB 6 Dec 76R ILLEGAL PCS,
ACCEPTANCE OF HIGH CRIME PL/HCOB.

        Per this policy, an illegal pc is any pc:

1.   Who is terminally (fatally) ill, regardless of what the
        org or Registrars may have promised or asserted.

2.   Who has an extensive psychiatric history which includes
        heavy drugs, or shocks of various kinds, or so-called
        psychiatric brain operations or institutionalization.

3.   Who has been denied processing by the Guardian Office
        for reason of past history or connections or current
        state as it may affect the safety and security of the
        org.

        This last category only includes persons who have been
or whose family members are in the media, police and govern-
ment organizations such as intelligence organizations or any
other federal agency in any country. People who have gone
to the press or have tried to sue Scientology are also covered
in the above category.

This does not include out-ethics people and they are not illegal pcs. PTSness is handled depending on type of PTSness (a-j or I-III), as already covered in existing policy.

The refusal to handle non-illegal pcs or students on the excuse that they were "illegal" (contrary to policy) or "PTS" is an indicator of out tech.

When tech goes out, an org can become frightened of having a rough case to handle because they can't crack them. So they don't handle. Instead, the person may be labelled "illegal pc" or "PTS" to justify not handling him.

In the presence of refusal of service to public a full investigation of out tech, absence of tech terminals, absence of Qual or HCO terminals and their executives should be done.

This is the duty of the LRH Comm or KOT but can be done by org execs on their own initiative. In either case the true cause of the situation must be discovered and the handling fully worked out and completed. This action is covered in HCO PL 12 February 1978 POWERS OF LRH COMMS, KOTS AND THE LRH COMM NETWORK.
