HATS, BASIC AND FALSE

What I'm finding as a basic outness in some areas is a false hat, meaning missing correct hat write up. This gives the apperency of "having a hat" to the person and "not wearing a hat" to others.

I am also finding ignorance of the basic hat with knowledge of all sorts of later odds and ends.

The safest thing to do is:

1. Study and grasp the Data Series PLs.
2. Study out the Ideal Scene for your post, section, department and Division.
3. Work out a stat for post, section, department and Division.
4. Work out the Ideal Scene for your org or ship or activity and its stat.
5. Work out the Ideal Scene for the whole of Scientology.
6. Work out the stat for the whole of Scientology.
7. Work out how your post Ideal Scene contributes to the whole of Scientology. If not refine your own Ideal Scene.
8. Work out how your stat expresses your own Ideal Scene.

To do this requires a lot of data to be dug up. But when you finish it you really got it.
