HCO POLICY LETTER OF 30 OCTOBER 1980
ISSUE IV

Remimeo

(Originally LRH OODs Item
of 24 October 1971)

PERFORMANCE

Most healing is in a primitive state. We are actually far more precise and organized in Dianetic and Scientology auditing than in any of the so-called healing arts (with which we have nothing in common).

Almost all of our troubles come from being flanked on all sides with incompetent "sciences". These include medicine, psychiatry, chemistry - you name it.

The world's "sciences" are so imbalanced they are delivering an overt product - a decaying Earth.

The animal kingdom is almost gone. The rivers and seas support less and less life.

If "science" was so good, there would be steady improvement in the planet itself. And there isn't.

This goes directly back to Man's failure to solve the riddle of himself. This failure then opened the door to domination by destructive personalities.

If we ourselves get rid of the idea we are just drifting along with the tide and begin to demand and deliver high level performance on every post, we can get there while there's still a planet left.

We must raise our sights as to what we expect from ourselves and each other.

Only then can we arrest and then reverse the decline.

For this reason I am following a policy of demanding high competence on post and a total intolerance of slackness.

We must be and can be a very sharp, smart organization.

I am doing all I can to make it so. Help me out.
