

HUBBARD COMMUNICATIONS OFFICE
Saint Hill Manor, East Grinstead, Sussex

HCO POLICY LETTER OF 5 NOVEMBER 1980
ISSUE II

Remimeo

(Originally LRH OODs item of 16 April 1970.
Also issued as an HCOB, same date,
same title.)

ARBITRARIES

An arbitrary is a false order or datum entered into a situation or group. It is 3rd dynamic aberration.

An arbitrary is something entered without reason. For the tech on this I refer you to "Dianetics, Evolution of a Science". It is a fascinating subject, arbitraries.

I found one time that people hadn't read Problems of Work where confusion and the stable datum is first covered. When I got that text across, then why we had stable terminals become very plain. Stable data is the other side of the coin. An arbitrary could be said to be a false stable datum.

Now if we can get arbitraries understood we will make some progress.

Whenever we as an organization violate the basic philosophy of Dianetics and Scientology we get into muddy water.

The whole trouble for instance with C/Sing is that the theory of the mind is not learned, only the mechanical processes. When one doesn't know the basic put-together of the mind but only knows processes, one never learns WHY the processes are used or when to use them. So one can be an auditor but can fail as a C/S if he doesn't know WHY and therefore WHEN to use a process.

A C/S should be an expert on the Original Thesis and the first few chapters of the DMSMH and on 8-80 and 8-8008. I'll bet those studying C/Sing right now are still puzzling over processes!

Know your basics. They're in our very oldest books. All advances have been in how to handle basics better.

Applies to pcs and to organizations alike.

Know WHY and you can tell WHEN.

If you knew the most basic data given in Dianetics and Scientology books, and if you knew Scientology HCO Bulletins and Policy Letters and Sea Org Flag Orders, you would never need an order at all. You would know the true intention and could work it all out.
